

Motorcraft® Extend

Remanufactured Coated Calipers

Quality parts for miles. And miles.

Motorcraft continues to deliver trusted, quality parts for Ford, Lincoln, and Mercury vehicles across their lifecycle. Motorcraft Extend expands that offering with value-driven solutions designed specifically for late lifecycle vehicle lines, helping keep vehicles on the road longer with confidence and at a price that fits their stage of life.

Motorcraft Extend Advantage

- Ready to install out of the box - just add Motorcraft Extend brake pads
- Delivers quality fit with competitive pricing and warranty
- Units are professionally disassembled, cleaned, and rebuilt utilizing new rubber seals, boots, and hardware
- Features OE-like casting for most makes and includes new square-cut seals, O-rings, boots, bleeder screws, copper washers, banjo bolts and hardware, including brackets (when applicable)
- OE piston material (Steel & Phenolic)

Designed To Take The Heat

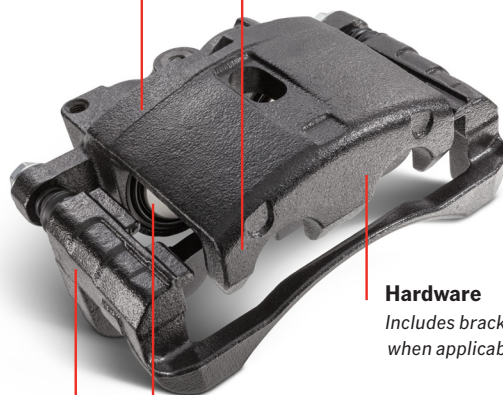

- Rigorous standards include 96 hour salt spray to ensure corrosion resistance
- 100% pressure tested to help reduce comebacks
- E-coated for long life:
 - Helps reduce fade with heat or UV exposure
 - Protects against corrosion and rust
 - Superior to powder coating
 - Includes coating on bracket bores and parking brake components
 - Stylish high-gloss appearance

E-Coated for Long Life

- Stylish, high-gloss black coating
- Helps reduce fade with heat or UV exposure

Electroplating Process

- E-coating provides uniform corrosion protection film
- Bracket bores E-coated to help resist sticking

Hardware

Includes brackets when applicable

OE Piston Material

Steel and Phenolic

Tested To Last

- Endures 96-hour salt spray to help ensure corrosion resistance
- 100% pressure tested
